- With 90° angled jaws
- Anti-slip, twisted precision tips
- With opening spring
- Handles coated with plastic
- Made of chrome vanadium steel, forged, oil-hardened

SKU: 175-62-A21

### General Information

#### Circlip Pliers

Made of chrome vanadium steel, our circlip pliers with their fully forged and turned precision tips offer a non-breaking, non-slip profile to guarantee a high standard of safety.

#### Finish 62

The no-fuss design of our series 62 immediately underlines their focus on what counts. The handles are dip-coated in plastic to provide optimum handling and a firm, comfortable grip even when used for long periods. The pliers, cutters and wrenches themselves are drop-forged tool steel, special tool steel or chrome vanadium steel and are oil hardened. They are also precision-ground and additionally induction-hardened to ensure the quality of your work results.

## Quality on the job

There's always plenty going on in car repair shops. For every vehicle and part the mechanics service, test or tune, they need the right tools for the job. Compiling a set of all the tools required soon becomes a major investment, which is one of many good reasons to opt for NWS' broad range of high-grade tools. Workshops know they will get what they really need from a single source: tools for many different applications that will be reliable aids for many years.
